PROFESSIONAL SUMMARY

Computer Science and Engineering (Honours) student at KL University with strong foundations in Data Structures, Algorithms, Full Stack Development, and Cybersecurity. Passionate about building scalable web applications, contributing to open-source software, and solving real-world engineering problems. Experienced with React, FastAPI, Node.js, MongoDB, Git, and collaborative software development.

EDUCATION

KL University Expected Graduation: 2028

Bachelor of Technology in Computer Science and Engineering (Honours)

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming, Software Engineering.

TECHNICAL SKILLS

Languages: C++, C, Python, JavaScript, TypeScript

Frontend: React.js, Vite, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI

Databases & Caching: MongoDB, MySQL, Redis

Developer Tools: Git, GitHub, Linux, VS Code, Postman

Core Concepts: Data Structures, Algorithms, REST APIs, Authentication, OOP, Problem Solving

PROJECTS

KL-Edge — Smart Student Utility Platform

React.js — FastAPI — Python — Redis — Tailwind CSS

- Engineered an all-in-one student utility platform and PWA for KL University to streamline academic workflows and campus services.
- Built real-time attendance calculation engines, shortage predictions, timetable schedulers, seating plans, and faculty search.
- Implemented automated ERP synchronization routines with Redis caching, accelerating data retrieval while minimizing server load.
- Integrated Moodle LMS for assignment tracking alongside an interactive campus facility map and secure device-based credential management.

Educational Platform

React.js — FastAPI — MongoDB

- Developed a full-stack educational platform for students and teachers.
- Implemented authentication, role-based access control, assignment management, and responsive dashboards.
- Built REST APIs and integrated frontend with backend services.

AI Mental Wellness Platform

React.js — FastAPI — MongoDB

- Built an AI-assisted mental wellness application featuring chatbot support.
- Implemented secure authentication, mood tracking, and daily wellness check-ins.
- Focused on scalable backend architecture and secure data handling.

Personal Portfolio Website

React.js

- Designed and developed a modern responsive portfolio showcasing projects, skills, certifications, and creative work.
- Added smooth animations and optimized UI for desktop and mobile devices.

OPEN SOURCE CONTRIBUTIONS

- Active contributor to open-source projects on GitHub.
- Contributed to the **4GA Boards** project by fixing bugs and improving features.
- Submitted **31+ Pull Requests**, with **6 merged** into production.
- Worked with Git workflows, issue tracking, branching strategies, and code reviews.

LEADERSHIP EXPERIENCE

Team Lead - Cyber Shadows KL University

- Led cybersecurity awareness initiatives and technical learning sessions.
- Organized workshops and collaborative technical activities.
- Mentored students interested in cybersecurity and software development.

Chief of Social Media & Broadcasting - KL Forge KL University

- Managed branding, photography, videography, and digital content creation.
- Produced promotional videos and technical event coverage.
- Coordinated outreach campaigns and increased community engagement.

ACHIEVEMENTS

- Active Competitive Programmer on HackerRank and CodeChef.
- Contributed to multiple open-source repositories.
- Participated in hackathons and technical competitions.
- Built and deployed multiple full-stack web applications.

CERTIFICATIONS

- Google Cybersecurity Professional Certificate
- Google Cloud Skills Boost Certifications
- AWS Cloud Foundations
